

Website Name: ForeignCollective

Topic: The ForeignCollective derives from my social media content, 22Foreign and ToForeign22. The Collective gives it a nice ring to it because it sounds like the community I am hoping to build together. The foreign Collective will consist of volunteering opportunities, scholarships, merchandise, our mission, and how to be a part of the foreign collective. Besides the things I described, I am hoping to add more features that makes this website seamless like a special event page or a way to subscribe to get alerts and updates about anything foreign. I want to be able for this to be a blueprint for a website that I want to promote and gain the skills to volunteer my abilities to people who can't afford to make their own website. This website won't just be a website, it will be a message within itself.
